More than 20 years of periodontal regeneration – Straumann® Emdogain®

YES, IT HAS BEEN 20 YEARS SINCE EMDOGAIN® WAS FIRST LAUNCHED IN EUROPE!

Over the past 20 years, Straumann® Emdogain® has proven to be an effective solution to treat patients with periodontitis by inducing the regeneration of lost periodontal tissues, and to provide improved patient satisfaction (compared to other methods) thanks to better healing, less surgical complications, and long-term clinical benefits.

Emdogain® in numbers:

- Over 2 million patients treated[1]
- Stable results documented for over 10 years in 2 indications[2]
- Over 800 scientific publications
- Over 400 clinical publications
- Almost no side effects[3]

CELEBRATE WITH US THE 20TH ANNIVERSARY OF EMDOGAIN®, SHARE A CLINICAL CASE TREATED WITH EMDOGAIN® WITH YOUR FELLOW DENTAL PROFESSIONALS.

Where will the cases be shown?

- All cases will be displayed on a digital platform of cases accessible worldwide.
- Selected cases will be included in the new Emdogain® casebook which will be published by the end of 2015.

What is the process?

- Fill out the online case collection form online at *straumann.com/EmdogainCases* OR
- Fill out the case collection form document available *at straumann.com/EmdogainCases* and submit it along with all the requested documentation to *regen@straumann.com.*
- Deadlines for submission:
  - General deadline: 31 December 2015
  - To be considered for the printed casebook: 19 June 2015

Prize:

- Everyone who submits a fully documented clinical case will receive a "20 years of Emdogain®" surgical suit!
- Three out of all cases with at least 12 years of follow-up that are being submitted before 19 June 2015 will be drawn and receive an iPad Air 2!
