

Smile in a Box[®]
Focus on your passion –
we take care of the rest.

IMPROVE PATIENT EXPERIENCE
and treatment acceptance with shorter treatment
cycles and effective communication.

GAIN EFFICIENCY
In your practice with immediate protocols
and flexible workflow outsourcing.
Benefit from all-in-one delivery.

Experience a new kind of efficiency from start to finish.

Smile in a Box[®] is a flexible, digital treatment planning and manufacturing service that helps you to grow and develop your dental practice. Our offering drives value by improving patient acceptance and allowing access to digital dentistry without investing in additional hard- or software.

Gain more efficiency by reducing chair-time with immediate treatment protocols. Increase the level of confidence in implant placement with a more predictable workflow using guided surgery.

Focus on your passion giving you the freedom to choose what you outsource and what steps you keep in house. Smile in a Box lets you grow your business — no matter where you are in your practice development.

MEET PATIENT EXPECTATIONS

With a guided-surgery workflow that makes treatment planning simple and predictable with regard to time, costs and outcome.

GROW YOUR BUSINESS

In a flexible way that suits and adapts to your current situation. Establish digital workflows without investment.

A modular solution from planning to final restoration.

- Streamline your workflow and set high quality standards with our modular outsourcing service
- Smile in a Box® can grow with you – whether you are starting a new practice or expanding an existing practice, we can help you scale up
- Go digital without financial investments in additional hard- or software

SURGICAL GUIDE & RESTORATIVE DESIGN

- We customize your digital designs (surgical guides and temporary restoration) according to the agreed planning
- You approve your:
 - Surgical guide design
 - Temporary restoration

TREATMENT PLANNING

- Based on your case information and data, we plan the implant treatment
- You review and approve the treatment plan during a live online session

CASE SUBMISSION

- Visit: www.smileinabox.com (no registration required)
- Submit the order form and upload your DICOM and STL data

For more information: Watch our workflow video online: www.smileinabox.com

- In-house steps in your practice
- Modular steps that can be done in-house or be outsourced to Smile in a Box® service.

A comprehensive and flexible digital workflow.

The Smile in a Box® service accommodates all treatment indications – from single tooth to edentulous cases. You have the flexibility to choose between various implant systems from our Straumann Group portfolio.

Single tooth

Multi tooth

Edentulous

IMPLANT SYSTEMS

Let us help your work flow.

Start your digital transformation by exploring our digital solutions portfolio and the possibilities our intraoral scanners have to offer.

3Shape TRIOS® Intraoral Scanner

A powder-free intraoral scanner with high accuracy 3D output and realistic colors. Enjoy the freedom of wireless scanning and 'AI Scan' function that removes unwanted soft tissue for faster impression taking. Measure teeth shades and record patients jaw movement to get the best restorative result back from lab.

Straumann® CARES® P series

CARES® P series is a new generation of precision 3D printers for fast and professional in-house production of premium-quality dental products on demand. The CARES® P series provides a new experience in professional dental printing in terms of speed, flexibility and open solutions.

coDiagnostiX®

coDiagnostiX® offers a new groundbreaking, guided-surgery workflow which integrates both drill guide, prosthesis design and fabrication. The software facilitates the seamless planning and design of surgical guides.
