DIGITAL DENTISTRY IS NOT THE FUTURE: IT IS THE PRESENT!

With more and more clinicians already using digital technology, the ability to offer simple and comfortable treatment to your patients isn't just for a few elite practitioners.

Our Digital Solutions is an easy and patient-friendly option to allow you to create a fast and attractive workflow in your practice.

For your patients:

SIMPLICITY

SPEED

**COMFORTABLE
TREATMENT**

For you:

**DIGITAL
PRECISION**

EFFICIENT

FLEXIBLE

IT ALL STARTS WITH A GREAT SCANNER.

Give your patients what they demand in a digital world: faster, easier and more comfortable care.

COMFORT

Small and light handpiece (only 130 g/4.6 oz), ergonomically designed for a pen-like grip offering unparalleled patient comfort. Virtuo Vivo™ does not require the use of powder and replaces conventional tray impressions, making the scanning process more seamless and the experience more pleasant for the patient.

FLEXIBILITY

Virtuo Vivo™ uses an open system, allowing you to export and share your scan data with dental partner labs and preferred services.

SIMPLICITY

Guided workflow helps you at each step, allowing you to access to services through integrated connectivity.

130 g/4.6 oz

207 mm

HIGH RESOLUTION

High-resolution color scanning for better communication with your patients. Teeth and soft tissue are scanned from multiple orientations simultaneously, capturing difficult-to-see areas with minimal effort.

SPEED

Data are captured from many angles simultaneously. This 3D scanning technology packs the power of two miniaturized 3D scanners into a small hand-held intraoral scanner.

PRECISION

Data quality can be validated in real-time as the software creates the 3D model. A luminescent ring on the handpiece and audible signals indicate when scan data has been successfully captured.

HYGIENE

Removable, autoclavable sleeve in coated metal to ensure proper hygiene for your patient.

THE BENEFITS OF GOING DIGITAL... FOR YOU AND YOUR PATIENTS.

Deliver a great and exciting customer experience by bringing digital impressions and treatments to life. Grow your practice with increased case acceptance and expand your offer with a large portfolio of services and solutions from the Straumann Group.

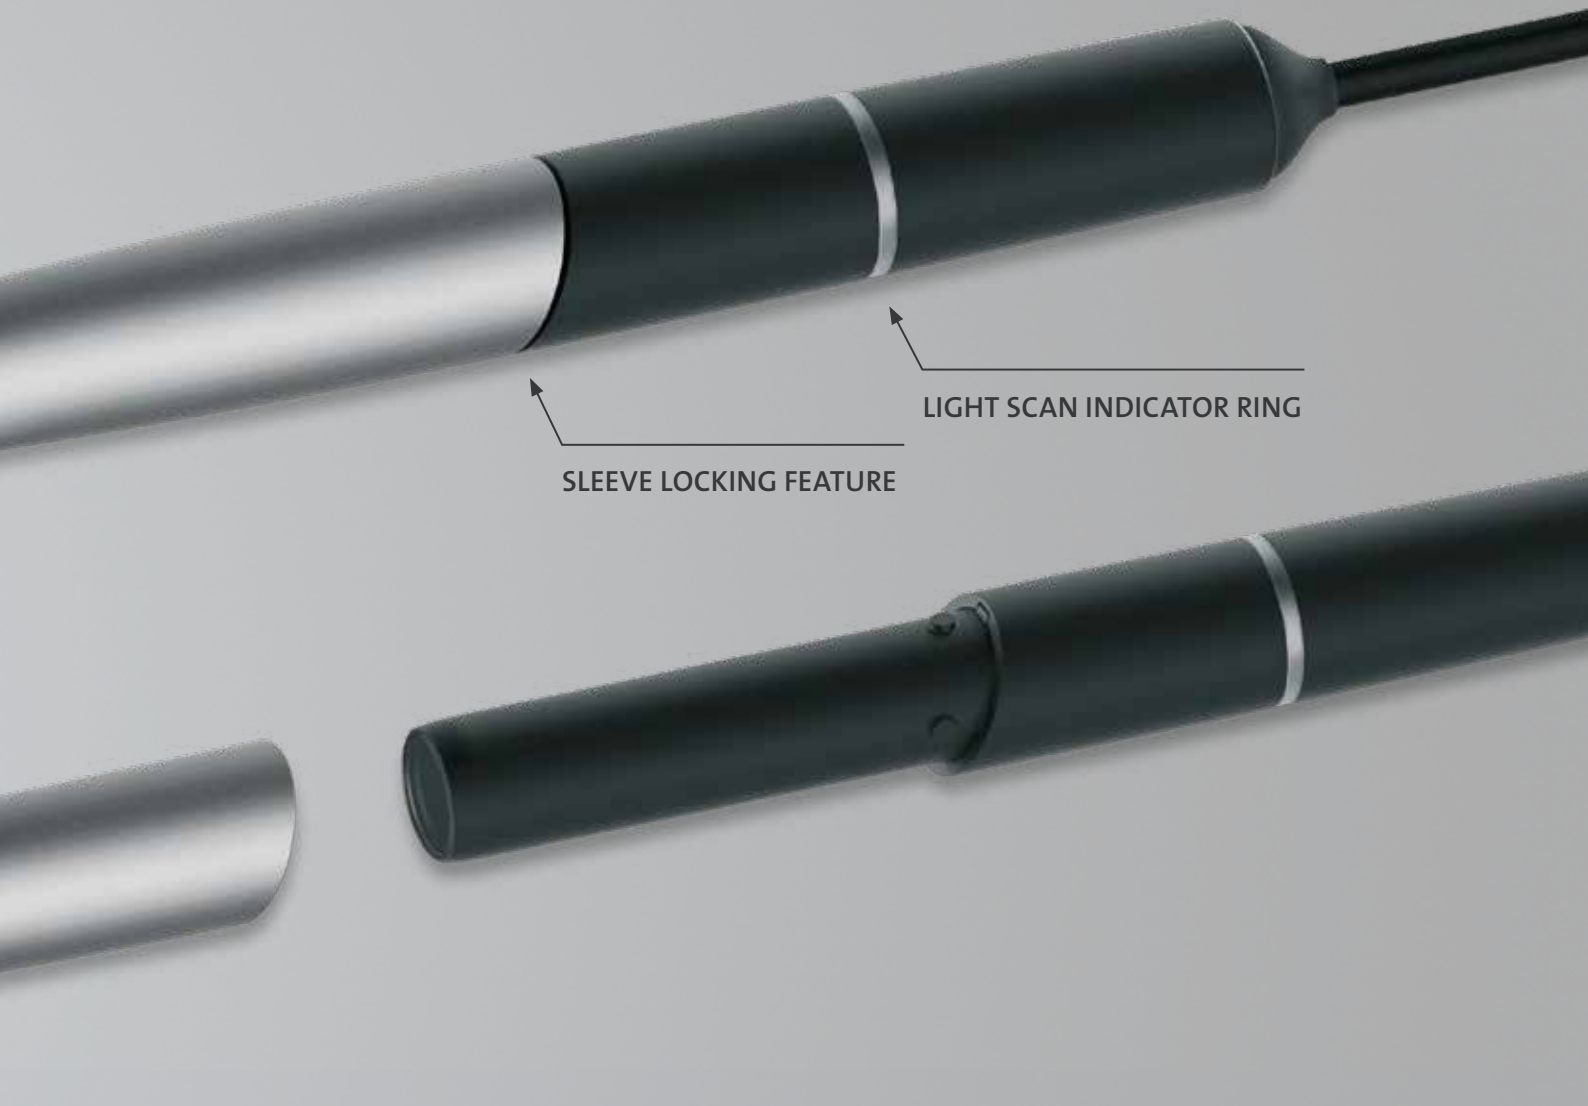

GREATER PATIENT SATISFACTION

- Higher comfort
- Improved patient interaction
- Improved communication

COST REDUCTION

- Reduced chair-time
- Fewer remakes
- Increased efficiency

REVENUE GROWTH

- New treatment options including guided surgery and clear aligners
- Ability to see more patients in the same time

FOCUS ON YOUR PATIENTS, WE TAKE CARE OF THE REST.

Do more with our solutions and services. Deliver multiple treatment options to your patients.

PLANNING/ DESIGN SOFTWARE

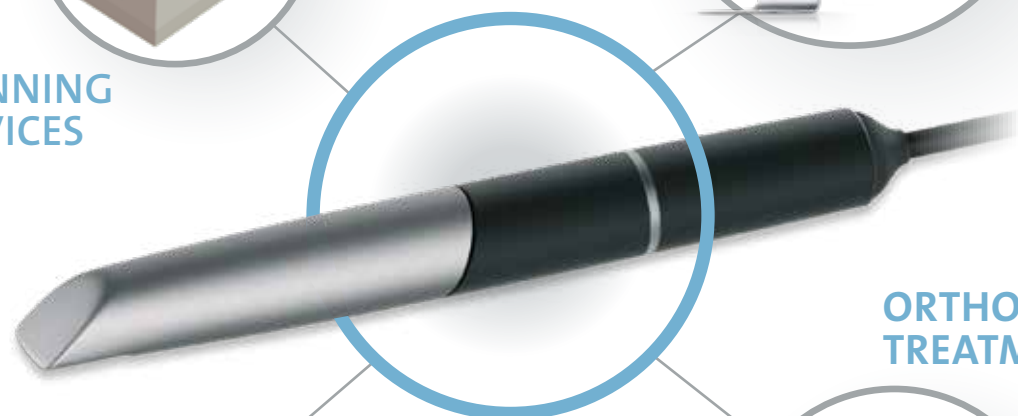

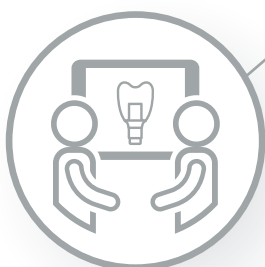

PLANNING SERVICES

ORTHODONTIC TREATMENTS

DENTAL LAB PARTNERS

PLANNING SERVICES

Grow and develop your practice by leveraging the full potential of our digital treatment planning and manufacturing services. Transfer your cases to Smile in a Box™; our team of experts and dental technicians will prepare and produce the surgical guide and restoration in alignment with you and your partners in one of our centralized production centers.

SURGICAL PLANNING & PRODUCTION

Plan your implant case, design and manufacture your surgical guides as well as the temporary prosthetics with coDiagnostiX® and CARES® Visual—a leading solution for every guided implant treatment.

ORTHODONTIC TREATMENTS

Excite your patients and expand your treatment portfolio with clear aligners – the removable, and nearly invisible orthodontics treatment. Virtuo Vivo™ integrates directly for smooth and easy case submission to our ClearCorrect services.

DENTAL LAB PARTNERS

Reduce the lead time with your labs and share the digital impression with your Dental Lab Partner of choice. Virtuo Vivo™ is an open system for direct connection and communication.

STILL NOT SURE? WE GOT YOU!

Make your first move into digital and set the stage for the future of your practice, with plug and play simplicity.

Contact your local Straumann Group representative to schedule a live demo and know more about how our Digital Solutions could help to grow your practice.

Do you want to
know more about our
digital solutions?

“It provides our patients with great perceptions of their existing intraoral conditions and facilitates the treatment planning discussion with them.”
