3:15 PM

Welcome and Introduction
Rikki Lucas
Straumann Group Country Manager

3:30 PM

Global Innovations in Dental Implantology:
From Single to Full-Arch Digital Workflows.
Dr. Sergio Bernardes (Brazil) 🇧🇷

In this engaging session, Dr. Sergio Bernardes shares global insights into the latest digital workflows, emerging trends and clinical approaches. Drawing on international experience and perspectives, he will discuss the technologies improving efficiency, predictability, and patient outcomes, while highlighting Neodent's vision for advancing digital dentistry and supporting clinicians in delivering exceptional care.

4:20 PM

Pros is Boss. Prosthetic Planning as the
Key to Implant Longevity.

Dr. Robby Sehmi
(Sydney, NSW) 🇦🇺

Dr. Robby Sehmi will discuss how prosthetic-driven planning serves as the foundation for long-term implant success across single-tooth, bridge, and full-arch restorations. This forward-looking session will explore how digital technologies and AI are transforming treatment planning, prosthetic design, material selection, and workflow efficiency, while helping clinicians prevent complications, improve maintenance, and deliver predictable, long-lasting outcomes for their patients

5:30 PM

Spot On Implant Placement: Surgery with
Pros, Hard & Soft Tissue in Mind.

Dr. Misagh Habibi
(Perth, WA) 🇦🇺

Dr. Misagh Habibi will discuss practical strategies for prosthetically driven implant placement, highlighting the critical relationship between implant positioning, soft and hard tissue management, and surgical decision-making. With a focus on modern treatment concepts, including immediate implant placement and immediacy protocols, this session will explore how careful planning and execution can optimise aesthetic and functional outcomes.

6:20 PM

Panel Discussion with the Speakers.

Dr. Sergio Bernardes
Dr. Misagh Habibi
Dr. Robby Sehmi
with guest moderator

7:10 PM
