

How to Add Annotations to a Scan.

Once you have gone through all the scanning and analyzing steps and are ready to send the scans to the lab, you can add comments to a digital impression. Lab technicians will see the annotations in 3Shape Dental System. Follow the steps below:

Step 1. First select **Annotations** from the menu at the bottom of the screen.

Step 2. Click on the scan in the location where you wish to add a comment. A text box will appear and you can type any comments into this.

Step 3. When you have finished click **Done** and move on to sending the case to the lab.
