## 1. CONDITIONS FOR REGISTRATION AND CASE SUBMISSION

- 1.1 Enrollment is only valid if this Case Submission Form is completed and duly signed by each Participant and sent in together with the Case Documentation, consisting of digital images including legends, a brief patient history and a short Curriculum Vitae (CV) of each Participant, as described hereafter in the Case Documentation Requirements.
- 1.2 Each Participant individually represents and warrants that no other regenerative products than Straumann® Emdogain® have been used.
- 1.3 The Participant(s) individually represent and warrant to be the exclusive author(s) and exclusive owner(s) of all rights related to the Case Documentation submitted and that no manipulation other than cropping, rotating and/or adjustments of contrast and brightness have been performed on the digital images presented with the Case Documentation, and that all registered Participants were actively involved in the treatment.
- 1.4 Each Participant individually represents and warrants that all information given in connection with the Case Documentation is true and valid.
- 1.5 Each Participant individually represents and warrants that he or she has obtained a legally valid waiver and consent from the patient to use the images in connection with this case contest.
- 1.6 All Case Documentation will be subject to Straumann USA, LLC Legal and Regulatory review and will only be accepted for use after final approval.

## 2. CASE DOCUMENTATION REQUIREMENTS

- 2.1 The Case Documentation may either be provided on a CD-ROM or via email. Photographs are to be converted into a digital format. Digital images must be submitted in TIF or JPEG format and should have print quality (min. 300 dpi resolution).
  - 2.2 An abstract of patient initial situation (anonymous; limited to dental history), chief complaint, diagnosis with explanation for why Emdogain was chosen, treatment protocol and results at furthest follow up time point in a common digital text format must be included on the CD-ROM. The maximum length of such abstract should not exceed 1500 words. **The text must be in English.**
  - 2.3 Abstract should include the following information:
    - Baseline statistics such as root coverage, probing depth, and/or clinical attachment level
    - Any other relevant descriptive information (biotype, lip line, etc.)
    - Patient's chief complaint
    - Treatment plan – including why Emdogain was chosen as the regenerative product
    - Surgical procedure
    - Initial healing
    - Follow up statistics such as root coverage, probing depth, and/or clinical attachment level
  - 2.4 The number of digital images filed must not be fewer than 2 and not more than 18. Digital images should include at least one pre-operative image and one post-operative displaying the entire treatment area. All digital images must be numbered consecutively. A concise legend (explanatory text) has to be provided with each digital image. The maximum length of such legend should not exceed 200 words. Legends must be in English and need to be numbered according to the related digital images. If one or several follow-up image(s) are provided, treatment timelines from the time of surgery to the time of follow-up image(s) must be given.
  - 2.5 The digital images should exhibit:
    - Good and consistent illumination/light conditions
    - Consistent camera angles
    - Good sight at treatment area
    - Adjacent teeth and gingiva
- They should **not** exhibit:
