

STRAUMANN® FULL-ARCH SOLUTIONS

Because we are all unique.

PATIENT-CENTRIC APPROACH

Out of millions of people facing dental problems, there are no two cases the same. Having the right solution for each individual patient is a challenge every clinician faces.

With Straumann® Full-Arch Solutions you have a whole portfolio designed to meet expectations of different patient groups and treat more patients.

For more information about Straumann® Full-Arch Solutions visit our website.

Treatment planning with coDiagnostiX®

coDiagnostiX®, a digital implant placement planning tool, enables you to plan full-arch cases precisely and easily. The tool offers numerous measurement and planning functions, including automatic nerve canal detection, various distance monitoring functions as well as designing surgical and bone resection guides.

Smile in a Box™ service

Smile in a Box™ – a digital, modular, integrated treatment planning and manufacturing service. The clinician can select the services he or she wants, and Straumann delivers everything needed for the treatment in one box. Smile in a Box™ makes the treatment planning simple and predictable with regard to time, costs and outcome.

Straumann Group Digital Solutions

Connect carefully selected, efficient dental equipment with the latest digital technology and premium materials to provide a seamless, open and fully validated digital workflow for dental professionals. Fully orchestrating the digital dental industry leaders.
