EXCELLENCE IN IMMEDIACY

Straumann® BLX
Confidence beyond Immediacy.
A next generation solution for confidence beyond immediacy.

Straumann® BLX has been designed for immediacy, and is also suitable for all other treatment protocols, ranging from immediate to conventional placement and loading, to suit the dentist's preference.

Straumann® BLX has been developed to improve the predictability and utilization of immediacy as an option for every-day applications. It instills confidence in and for dentists through the combination of legacy, experience and innovation. Straumann® BLX is the culmination of Swiss premium quality, precision and pioneering innovation backed by one of the largest global scientific networks, the ITI.

Straumann® BLX System lets you develop and capitalize on new business opportunities by addressing increasing patient demand for shorter treatment times.

"For immediate protocols I want products that provide me with peace of mind in demanding clinical situations. Straumann® BLX Implants with Roxolid® and SLActive® give me that confidence."

"BLX is exciting because it extends the treatment options we can offer with Straumann® products. It's a new era of implant treatment."

Dr. Eirik Salvesen
Stavanger, Norway
Immediate procedures are clinically well documented
High survival rates, comparable to conventional protocols¹

**IMMEDIATE PROTOCOLS:**

FOR THE PATIENT THIS MEANS:
- Fewer dentist visits
- Shorter treatment cycle

FOR THE CLINICIAN THIS MEANS:
- Develop and capitalize on new business opportunities by addressing increasing patient demand
- Shorter treatment times

*Example scenario

Efficient workflow protocol that leads to shorter treatment cycles for the patient.
Straumann® BLX
Confidence beyond Immediacy.

BLX unifies progressive functional design with our high-performance Roxolid® material and the clinically proven SLActive® surface to provide you with confidence for all clinical situations. Innovations like the VeloDrill™ system, Dynamic Bone Management and Esthetic Ease Concept are designed to significantly improve surgical and restorative workflows.

TorcFit™ Connection
Hybrid internal conical connection with high flexibility and strength.

Esthetic Ease Concept
Simplified but versatile portfolio, featuring one connection and under-contoured prosthetics to deliver esthetics with ease.

Straumann® CARES®
Digital Solutions
- Fully digitally integrated workflows and seamless connectivity

Roxolid®
Reducing invasiveness with smaller implants
- Preserves vital structures and vascularization2, 3
- Reduces invasive grafting procedures2, 1
- Increases treatment options in challenging anatomical situations and narrow interdental spaces4, 4
**SLActive®**
Designed to maximize treatment success and predictability

- Reduce healing time to 3 – 4 weeks\(^5,6\)
- Deliver high long-term predictability in immediate loading\(^7\)
- Provide outstanding success rates in compromised patients\(^8,9,10,11\)
- Promote bone regeneration, even at compromised sites\(^12,14,15\)

---

**Straumann® VeloDrill™ system**
Significantly shortens oral surgery chair time by simplifying the drill protocol. Minimizes heat generation and avoids overheating surrounding tissues and delivers high drilling stability.

\(\phi 3.75\) mm for all indications
Slim core and fully tapered implant design enabling bone-preserving protocols with a \(\phi 3.75\) mm implant cleared for all indications.

---

**Dynamic Bone Management**
The intelligent implant concept allows for Straumann Dynamic Bone Management and is designed for immediate protocols in all bone types.
Controlled bone management in all surgical situations.
The intelligent implant concept allows for Straumann Dynamic Bone Management and is designed for immediate protocols in all bone types.

Dynamic Bone Management.

- The unique "Cut, Collect, Condense"-properties redistribute native bone along the implant leading to high bone-to-implant contact
- Bi-directional cutting elements enable control over insertion torque to achieve optimal primary stability in all bone types
- Reduced implant neck designed for stress-free crestal bone
- Straumann® VeloDrill™ system significantly shortens oral surgery chair time with fewer drilling steps and minimizes heat generation
Simplified but versatile portfolio, featuring one connection and under-contoured prosthetics to deliver esthetics with ease.

**SIMPLICITY MEETS VERSATILITY**

- Streamlines workflows with one prosthetic line for all implant diameters
- Straight forward soft tissue conditioning
- Matching healing, temporary and final abutments
- Slim emergence profiles for higher esthetics.
ONE CONNECTION
Real Confidence.

Swiss precision and quality with Roxolid® material and SLActive® surface – technologies backed by long-term scientific evidence.

DESIGNED FOR PREDICTABLE RESULTS YOU CAN TRUST.

- Proven technologies, Roxolid® material and SLActive® surface
- Scientific backing and educational network
- Swiss precision engineering and quality
- Fully digitally integrated workflows
- Complete range of biomaterials

Innovations in design, technology, materials, software, processes and protocols open up new opportunities. That’s why Straumann® relentlessly strives for excellence in immediacy and total confidence in the outcome – for dentist and patients alike.
Immediacy from the confidence brand.
