

Straumann® Lab Education.
Partnership by competence.

Straumann® Lab Education.

Partnership by competence.

The dental market shows how crucial the role has become that dental labs and technicians play in implant dentistry and, therefore, how important they are as a partner for Straumann.

In order to further emphasize your value and draw dentists' awareness to the quality you provide, we reinforce our activities with an entire education package: Straumann® Lab Education.

The extensive training program aims to train you to a high level of competence to minimize handling errors, win and keep loyal customers, meet patient demands and, in that event, achieve the best possible functional and esthetic work results.

Straumann® Lab Education is specifically tailored for dental technicians who work with Straumann prosthetic components and workflows. We are eager to connect with your dental lab for a dependable partnership by competence.

The education program offers trainings on different levels from basic single-tooth restoration up to very complex cases. Here is an overview of the entire Straumann® Lab Education package:

CONVENTIONAL LAB COURSES

Meet the Straumann® Expert – Conventional

Introduction to the Straumann® Dental Implant System focusing on prosthetic restorations. A theoretical presentation that might include some hands-on practice.

Straumann® Lab Education Basic – Conventional

Training on straightforward reconstructions including the following restorations:

- Cement-retained
- Bridges in the posterior zone
- Removables with single retentive elements
- Theoretical and practical course

Straumann® Lab Education Advanced – Conventional

Training on advanced reconstructions including the following restorations

- Screw-retained
- Esthetic zone
- Removables with bar retention
- Theoretical and practical course

Straumann® Lab Education Complex – Conventional

Training on complex reconstructions for the following restorations:

- Full-arch
- Immediate placement
- Theoretical and practical course

Additionally to these standard trainings, Straumann has set up the LAB ACADEMY. The Straumann® LAB ACADEMY is a program to educate in-country trainers.

Straumann® Lab Academy

Train-the-trainer technician course to certify lab technicians who are qualified to offer theoretical and/or practical courses on behalf of Straumann, and to develop lab technicians as key opinion leaders

DIGITAL LAB COURSES

Meet the Straumann® Expert – Digital

Introduction to the Straumann® Dental Implant System focusing on prosthetic restorations. A theoretical presentation that might include some hands-on practice.
