

For more than 75 years, Anthogyr has been designing, manufacturing and distributing medical devices to enable dental health professionals to care for thousands of patients worldwide.

Based in the heart of the Alps, Anthogyr is a company on a human scale that has become a key player in dental implantology in France and in other fast-growing markets such as in Europe and China.

Since 2019, Anthogyr has joined the Straumann Group, the world market leader, to strengthen its presence in the main global markets. We offer you the opportunity to evolve in a pleasant and stimulating professional environment, within a dynamic team and in an attractive living environment.

Data & Tech Manager Anthogyr (m/f/x)

You are a true professional in IT and you love to work in an international environment? We are looking for you as a member of the EMEA Data&Tech organization, leading our local Data&Tech team in Sallanches to facilitate the delivery of superior services in our production site and 2 additional remote locations in France (Sales Office) and Luxemburg (CAD/CAM manufacturing). In this demanding and diversified function, you will focus on advising and supporting a team of 8 colleagues to ensure a high level of service. You will be part of the Data&Tech EMEA team and you will work with global infrastructure and workplace, and enterprise applications teams. In addition, you will align projects with the local stakeholders of the 3 entities as part of Straumann's global strategy and you will be responsible for ensuring a successful implementation of local business requirements. In this role, you will report to the Head of Data&Tech EMEA.

MISSIONS:

- ✓ Managing and monitoring activities for 3 entities in France and Luxemburg with 550 end-users
- ✓ Leading personnel management, including staff recruitment, performance assessment, people development, and mentoring
- ✓ Building strong relationships with Data&Tech teams in the region to enable effective collaboration
- ✓ Maintaining high-performance levels for service-related processes, and implementing improvement activities
- ✓ Ensure availability of manufacturing sites (Business continuity and disaster recovery plan).

- ✓ Participate in global initiatives and projects.
- ✓ Taking accountability for the implementation of Cybersecurity activities
- ✓ Data protection Champion for Anthogyr (acting with global Data Protection Officer)
- ✓ Budget Responsibility (OPEX, CAPEX)

QUALIFICATIONS:

- ✓ Bachelor's degree in computer science or similar
- ✓ 10 years relevant experience in IT department, ideally in a pharma or medical device environment. Of which 2/3 years' experience in projects /people management is preferable.
- ✓ Comprehensive understanding and knowledge of SAP processes (mainly SD, MM, PP)
- ✓ Knowledge of computer system validation (CSV) and a good understanding of cybersecurity within a manufacturing site
- ✓ Thorough understanding of overall processes within a full-scope company (Manufacturing, R&D, Finance, sales...)
- ✓ Passionate about the IT industry and how new technology can improve business outcomes in an international environment
- ✓ Knowledge of the scrum/agile framework would be highly appreciated
- ✓ Proven skills in leadership development & team building. Ability to inspire, coach, train, and develop team members to foster a culture of trust & collaboration and drive for results
- ✓ Readily embraces and supports change initiatives.
- ✓ Entrepreneurial spirit where digital and efficiency comes first
- ✓ A new and curious mind-set, always looking for changes to improve the status quo
- ✓ Ensures understanding, trust and cooperation through effective and appropriate communication.
- ✓ Fluent in French and English. Every additional language is an advantage

ADDITIONAL INFORMATION: We offer...

- ✓ Being part of a dynamic, inspired and engaged team .
- ✓ Take ownership as an expertA new and curious mind-set, always looking for changes to improve the status quo
- ✓ Make an impact as one of our #ChangeMakers
