Flexible options. Tailored to you.

With a wide variety of treatment packages and clinical preferences available, ClearCorrect gives you the flexibility to customize any case, from simple to complex.

Choose from a wide variety of treatment packages with the added option of upgrading your package at any time during treatment.

Receive your treatment plans according to your exact specifications through our robust suite of Treatment Preferences.

Control the progression of your treatment using dynamic and phase-based shipping schedules that give you the flexibility to customize aligner wear time.

Treatment package	Number of Steps	Clinical Indications	Included in Treatment
UNLIMITED 5 For severe cases	As many steps as needed to reach the clinical goal	Combination cases, phase-based treatments, extractions, potentially non-compliant patients with treatment interruptions	Up to 5 years of treatment. Unlimited revisions, and 2 sets of retainers included.
UNLIMITED 3 For moderate to severe cases	As many steps as needed to reach the clinical goal	Class II & Class III, moderate-severe crowding/spacing, vertical discrepancies, anterior/molar rotations	Up to 3 years of treatment. Unlimited revisions, and 2 sets of retainers included.
TWO For moderate cases	Up to 48 steps	Moderate crowding/spacing, crossbite, overbite/overjet & mild-moderate vertical discrepancies	Up to 2 years of treatment. 2 revisions (each revision up to 48 steps) and 2 sets of retainers included.
ONE For mild cases	Up to 24 steps	Class I, mild crowding/spacing & mild overbite/overjet reduction	Up to 1 year of treatment. 1 revision (up to 24 steps) and 1 set of retainers included.
MINI For very mild cases	Up to 12 steps	Mild relapse cases & treating the Aesthetic Zone	Up to 6 months of treatment. 1 revision (up to 12 steps). Additional cost for retainers.
FLEX For revisions & recent relapse cases	Varies per treatment; pay for the exact number of steps needed	Revision and relapse cases	Additional cost for new treatment setups, revisions & retainers.
RETAINER For orthodontic retention	Pay per arch	Retention of final occlusion to prevent teeth relapse	Retainers can either be based on a previous step or on new impressions or scans.
